

**CITY OF THE VILLAGE OF MINNETONKA BEACH  
NOTIFICATION OF ACCESSIBILITY OF THE SERVICE LINE MATERIALS  
INVENTORY**

**Notice is Hereby Given**, The City of the Village of Minnetonka Beach has completed and submitted its service line materials inventory to the Minnesota Department of Health. The service line inventory is publicly available, and service line materials can be checked by visiting the Lead Inventory Tracking Tool (LITT)( <https://maps.umn.edu/LSL/>). To complete the service line inventory, the City received service line photos from residents to determine curb stop to home service line materials, researched city records for lead/galvanized material installation from water mains to curb stops, and created a service line materials data base. As of 11/4/2024, our inventory contains 118 unknown material and 128 non-lead service lines. Individual notices will be sent to properties with unknown service line material. For additional information, email [info@ci.minnetonka-beach.mn.us](mailto:info@ci.minnetonka-beach.mn.us).
